To see what sum of money the Town will raise and appropriate to provide a series of mylar overlay maps delineating the Town's natural resources and land capabilities in support of Town Land Use Planning. $2,000.00 of said amount to be reimbursed by the Town Conservation Commission. Said maps to be available to all Town Boards. (Article presented by request of Town Boards.)

39. To see if the Town will vote to raise and appropriate the sum of $500.00 for Old Home Day, or take any action thereon.

40. To see if the Town will vote to raise and appropriate the sum of $500.00 for Memorial Day, or take any action thereon.

41. To see if the Town will vote to raise and appropriate the sum of $36,245.00 principal and interest, to pay the State's share of the bond issue for the West Swanzey Sewage System, the State to reimburse the Town $30,287.00 principal and interest on this bond.

42. To see if the Town will vote to raise and appropriate the sum of $41,437.50 principal and interest, for the FHA Bond Issue covering the Town's share of the West Swanzey Sewage System.

43. To see if the Town will raise and appropriate $41,700.00 for the operation of the West Swanzey Treatment Facility for 1987.

44. To see if the Town will vote to authorize the Sewer Commission to add to the Capital Reserve Fund for repair and replacement of the West Swanzey Sewage System and to authorize the sum of $3,500.00 to be taken from a 1986 surplus in the sewer operating account.

45. To see if the Town will vote to raise and appropriate the sum of $23,051.70 to reimburse the City of Keene for Swanzey's share of the Capital costs of the Keene Sewage Treatment Facility to date through 1987.

46. To see if the Town will authorize the Selectmen to sell at public auction any tax-deeded property owned or received by the Town, or take any action thereon.

47. To see if the Town will authorize the Selectmen to apply for, accept and expend without further action by the Town Meeting, money from State, Federal or other governmental unit or private source which becomes available during the year as noted in RSA 31, as amended.

48. To see what sum of money the Town will vote to raise and appropriate for reassessment of Town property.

49. To see if the Town will vote to raise and appropriate the sum of $500.00 for the general support of the Grand Monadnock Arts Council, or take any action thereon.

50. To see if the Town will vote to raise and appropriate the sum of $10,000.00 to hire an administrative assistant for the Selectmen, or take any action thereon.

51. To see if the Town will vote to adopt the alarm system provisions as described:

ALARM SYSTEMS

It shall be unlawful for any person or person's to have on any premises a burglary and/or robbery alarm, unless there is filed at the police department a current listing of the telephone numbers at which the person or persons authorized to enter such premises to turn off such alarm can be reached at all times. (Will be a violation.)

FALSE ALARMS

For a third response to a premises within six (6) months after a second (2) response and for all succeeding responses within six (6) months of last response a fee of twenty-five dollars ($25) shall be charged by the Town of Swanzey, and if such third (3) false alarm or any such succeeding false alarm is as a result of failure to take necessary corrective action prescribed by the chief of police, said chief of police may order the disconnection of such alarm system and it shall be unlawful to reconnect such alarm system until such corrective action is taken.

or take any action thereon.

52. To see if the Town will authorize and require the Selectmen immediately:

(1) to cause the City of Keene to construct, operate and maintain its sewer plant, located at the Dillant-Hopkins Airport, and all related activities inconformity with all ordinances, regulations and statutes applicable to the construction, operation and maintenance of the plant and related activities including, but not necessarily limited to, Swanzey Site Plan Review permit; Swanzey Zoning Ordinance; Swanzey Wetlands Regulations; New Hampshire and Federal air, water, noise, airport and health provisions;

(2) to cause the City of Keene to abate the public nuisance, intolerable odor, and health hazard associated with operation of sewer plant and related activities;

(3) to take whatever action is necessary to effectuate their authority herein including but not necessarily limited to, instituting legal action against the City of Keene, seeking imposition of damages, injunctive relief, criminal fines and penalties, and filing complaints and protests with regulatory boards, commissions and agencies.

or take any action thereon. (By Petition)

53. To see if the Town will vote to instruct the Town's representatives to the General Court to take all necessary measures to insure that no low level radioactive waste from the Seabrook nuclear plant shall be stored or disposed of within this Town of Swanzey, New Hampshire unless and until the proposed site of the proposed storage or disposal has been approved by the voters of the Town at the annual Town Meeting by written ballot. (By Petition)

54. To see if the Town will vote to accept from the Historical Committee a deed for the museum building that is on Town property, or take any action thereon.

55. To see if the Town will accept the proposed amendments to Swanzey Zoning Ordinance and changes in Swanzey Mobile Home Ordinance as follows:

I. Elimiate the Swanzey Mobile Home Ordinance, adopted in 1972, as amended. Regulations governing the installation and operation of manufactured housing parks (mobile home parks) will be added to the Swanzey Subdivision regulations.

II. Eliminate Section VI - General District Uses and to amend the Swanzey Zoning Map to change all areas now zoned General to Rural Agricultural.

III. Add to Section IV - Rural Agricultural District - Uses Permitted:
9. Manufactured Housing on individual lots, provided they meet the requirements of the district and all other pertinent requirements of this ordinance.

IV. Add to Section IV - Rural Agricultural District - under Uses permitted by Special Exception:
Manufactured Housing parks may be allowed if they meet all the requirements of the Swanzey Sudivision Regulations.

V. Eliminate #10 A- Section III - reference to Swanzey Mobile Home Ordinance. (This is a procedural change.)

VI. Add the following to uses permitted by Special Exception on the Residential and Commercial Zones:
Upon written application to the Board of Adjustment setting forth reasonable cause for the temporary use of a trailer or manufactured housing, the board may issue a permit for a period not to exceed 6 months. No permit shall be required for the temporary use of any travel trailer for a period not exceeding two weeks.

VII. Eliminate new two family houses as an allowable use in all districts.

VIII. Add to uses allowable by Special Exception in all districts:
Two family houses may be allowed if they meet the following requirements and all other pertinent requirements of this ordinance:
Lots for two family houses shall have a minimum of 1½ acres and have 150 ft. frontage on a town maintained road.

IX. Eliminate Section XVII - Flood Plain Regulations - add adopt the following Flood Plain Regulations:
The following regulations shall apply to all lands designated as special flood hazard areas by the Federal Emergency Management Agency in its "Flood Insurance Study for the Town of Swanzey, N.H." together with the associated Flood Insurance Rate Maps and Flood Boundary and Floodway maps of the Town of Swanzey, dated May 5, 1981 which are declared to be a part of this Ordinance.

Item I. Definition of Terms:

"Area of shallow flooding" means a designated AO, AH, or VO zone on a community's Flood Insurance Rate Map (FIRM) with a one percent or greater annual chance of flooding to an average depth of one to three feet where a clearly defined channel does not exist, where the path of flooding is unpredictable and where velocity flow may be evident. Such flooding is characterized by ponding or sheet flow.

"Area of special flood hazard" is the land in the flood plain within a community subject to a one percent or greater chance of flooding in any given year. The area may be designated as Zone A on the FHBM. After detailed ratemaking has been completed in preparation for publication of the FIRM, Zone A usually is refined into Zones A, AO, AH, A1-30, AE, A99, VO, or V1-30, VE or V.

"Base flood" means the flood having a one percent chance of being equalled or exceeded in any given year.

"Basement" means any area of the building having its floor subgrade (below ground level) on all sides.

"Building" -- see "structure."

"Breakway wall" means a wall that is not part of the structural support of the building and is intended through its design and construction to collapse under specific lateral loading forces without causing damage to the elevated portion of the building or supporting foundation.

"Coastal high hazard area" means the area subject to high velocity waters, including but not limited to hurricane wave wash or tsunamis. The area is designated on a FIRM as Zone V1-30,VE, or V.

"Development" means any man-made change to improved or unimproved real estate, including but not limited to buildings or other structures, mining, dredging, filling, grading, paving, excavation or drilling operations.

"Flood" or "Flooding" means: A general and temporary condition of partial or complete inundation of normally dry land areas from:

(1) The overflow of inland or tidal waters.

(2) The unusual and rapid accumulation or runoff of surface waters from any source.

"Flood Boundary and Floodway Map" (FLOODWAY) is an official map of the community, on which the Federal Emergency Management Agency has delineated the "Regulatory Floodway". This map should not be used to determine the correct flood hazard zone or base flood elevation, the Flood Insurance Rate Map (FIRM) will be used to make determinations of flood hazard zones and base flood elevations.

"Flood elevation study" means an examination evaluation and determination of flood hazards and, if appropriate, corresponding water surface elevations, or an examination, evaluation and determination of mudslide (i.e., mudflow) and/or flood-related erosion hazards.

"Flood Hazard Boundary Map" (FHBM) means an official map of a community, issued by the Federal Emergency Management Agency, where the boundaries of the flood, mudslide (i.e., mudflow) related erosion areas having special hazards have been designated as Zones A,M, and/or E.

"Flood Insurance Rate Map" (FIRM) means an official map of a community, on which the Federal Emergency Management Agency has delineated both the special hazard areas and the risk premium zones applicable to the community.

"Flood Insurance Study" see "flood elevation study."

"Flood plain" or "flood-prone area" means any land area susceptible to being inundated by water from any source (see definition of "flooding").

"Flood proofing" means any combination of structural and non-structural additions, changes, or adjustments to structures which reduce or eliminate flood damage to real estate or improved real property, water and sanitary facilities, structures and their contents.

"Floodway" - see "regulatory floodway."

"Functional dependent use" means a use which cannot perform its intended purpose unless it is located or carried out in close proximity to water. The term includes only docking facilities, port facilities that are necessary for the loading and unloading of cargo or passengers, and ship building and ship repair facilities, but does not include long-term storage or related manufacturing facilities.

"Highest adjacent grade" means the highest natural elevation of the ground surface prior to construction next to the proposed walls of a structure.

"Lowest Floor" means the lowest floor of the lowest enclosed area (including basement). An unfinished or flood resistant enclosure, usable solely for parking of vehicles, building access or storage in an area other than a basement area is not considered a building's lowest floor: Provided, that such enclosure is not built so as to render the structure in violation of the applicable non-elevation design requirements of this ordinance.

"Mean sea level" means, for purposes of the National Flood Insurance Program, the National Geodetic Vertical Datum (NGVD) of 1929 or other datum, to which base flood elevations shown on a community's Flood Insurance Rate Map are referenced.

"Manufactured home" means a structure, transportable in one or more sectins, which is build on a permanent chassis and is designed for use with or without a permanent foundation when connected to the required utilities. For flood plain management purposes the term "manufactured home" also includes park trailers, travel trailers, and other similar vehicles placed on a site for greater than 180 consecutive days. For insurance purposes the term "manufactured home" does not include park trailers, travel trailers, and other similar vehicles.

"Manufactured home park or subdivision" means a parcel (or contiguous parcels) of land divided into two or more manufactured home lots for rent or sale.

"100-year flood" see "base flood."

"Regulatory floodway" means the channel of a river or other watercourse and the adjacent land areas that must be reserved in order to discharge the base flood without cumulatively increasing the water surface elevation more than one foot at any point. These areas are designated as floodways on the Flood Boundary and Floodway Maps.

"Riverine" means relating to, formed by, or resembling a river (including tributaries), stream, brook, etc.

"Special flood hazard area" means an area having special flood, mudslide (i.e., mudflow) and/or flood-related erosion hazards, and shown on an FHBM or FIRM as Zone A, AO, A1-30, AE, A99, AH, VO, V1-30, VE, V, M, or E. (See Area of Special Flood Hazard)

"Structure" means for floodplain management purposes, a walled and roofed building, including a gas or liquid storage tank, that is principally above ground, as well as a manufactured home.

"Start of Construction" includes substantial improvement, and means the date the building permit was issued, provided the actual start of constrcution, repair, reconstruction, placement, or other improvement was within 180 days of the permit date. The actual start means either the first placement of permanent construction of a structure on a site, such as the pouring of slab or footings, the installation of piles, the construction of columns, or any work beyond the stage of excavation; or the placement of a manufactured home on a foundation. Permanent construction does not include land preparation, such as clearing, grading and filling; nor does it include the installation of streets and/or walkways; or does it include excavation for a basement, footings, piers, or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings, such as garages or sheds not occupied as dwelling units or not part of the main structure.

"Substantial improvement" means any combination of repairs, reconstruction, alteration, or improvements to a structure in which the cumulative cost equals or exceeds fifty percent of the market value of the structure. The market value of the structure should be (1) the appraised value of the structure prior to the start of the initial repair or improvement, or (2) in the case of damage, the value of the structure prior to the damage occurring. For the purposes of this definition, "substantial improvement" is considered to occur when the first alteration of any wall, ceiling, floor, or other structural part of the building commences, whether or not that alteration affects the external dimensions of the structure. The term does not, however, include any project for improvement of a structure required to comply with existing health, sanitary, or safety code specifications which are solely necessary to assure safe living conditions or any alteration of a structure listed on the National Register of Historic Places.

"V-Zone" - see "coastal high hazard area."

"Water surface elevation" means the height, in relation to the National Geodetic Vertical Datum (NGVD) of 1929, (or other datum, where specified) of floods of various magnitudes and frequencies in the flood plains of coastal or riverine areas.

Item II.

All proposed development in any special flood hazard areas shall require a permit. Permits shall not be issued for Manufactured homes or Parks anywhere in the special flood hazard areas.

Item III.

The Building Inspector shall review all building permit applications for new construction or substantial improvements to determine whether proposed building sites will be reasonably safe from flooding. If a proposed building site is in a flood-prome area, all new construction and substantial improvements shall (i) be designed (or modified) and adequately anchored to prevent flotation, collapse, or lateral movement of the structure resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy, (ii) be constructed with materials resistant to flood damage, (iii) be constructed by methods and practices that minimize flood damages, and (iv) be constructed with electrical, heating, ventilation, plumbing, and air conditioning equipment and other service facilities that are designed and/or located so as to prevent water from entering or accumulating within the components during conditions of flooding.

Item IV.
Where new and replacement water and sewer systems (including on-site systems) are proposed in floodprone areas the applicant shall provide the Building Inspector with assurance that new and replacement sanitary sewage systems will be designed to minimize or eliminate infiltration of flood waters into the systems and discharges from the systems into flood waters, and on-site waste disposal systems will be located to avoid impairment to them or contamination from them during periods of flooding.

Item V.
The Building Inspector shall maintain for public inspection, and furnish upon request, any certification of flood-proofing and the as built elevation (in relation to mean sea level) of the lowest floor (including basement) of all new or substantially improved structures, and include whether or not such structures contain a basement. If the structure has been floodproofed, the as built elevation (in relation to mean sea level) to which the structure was floodproofed. This information must be furnised by the applicant.

Item VI.
The Building Inspector shall review proposed developments to assure that all necessary permits have been received from those governmental agencies from which approval is required by Federal or State law, including Section 404 of the Federal Water Pollution Control Act Amendments of 1972, 33 U.S.C. 1334. It shall be the responsibility of the applicant to certify these assurances to the Building Inspector.

Item VII.
In riverine situations, prior to the alteration or relocation of a watercourse, the applicant for such authorization shall notify the Wetlands Board of the New Hampshire Environmental Services Department and submit copies of such notification to the Building Inspector. Further, the applicant shall be required to submit copies of said notification to those adjacent communities as determined by the Building Inspector.

Within the altered or relocated portion of any watercourse, the applicant shall submit to the Building Inspector, certification provided by a registered professional engineer assuring that the flood carrying capacity of the watercourse has been maintained.

Along watercourses that have a designated Regulatory Floodway no encroachments, including fill, new construction, substantial improvements, and other development are allowed within the designated Regulatory Floodway that would result in any increase in flood levels within the community during the base flood discharge. In Zone A the Building Inspector shall obtain, review, reasonably utilize any floodway data available from a Federal, State, or other source as criteria for requiring that development meet the floodway requirements of this section.

Along watercourses that have not had a regulatory floodway designated, no new construction, substantial improvements or other development (including fill) shall be permitted within Zone A1-30 and AE on the FIRM, unless it is demonstrated that the cumulative effect of the proposed development, when combined with all other existing and anticipated development, will not increase the water surface elevation of the base flood more than one foot at any point within the community.

Item VIII.
1. In special flood hazard areas the Building Inspector shall determine the 100 year flood elevation in the following order of precedence according to the data available:
    a. In Zones A1-30, AH, AE, V1-30, & VE refer to the elevation provided in the communities Flood Insurance Study and accompanying FIRM or FHBM.

b. In unnumbered A zones the Building Inspector shall obtain, review, and reasonably utilize any 100 year flood elevation data available from Federal, State, development proposals submitted to the community (example subdivisions, site apporovals, etc.) or other source.

c. In Zone AO the 100 year flood elevation is determined by adding the elevation of the highest adjacent grade to the depth number specified on the FIRM or if no depth number is specified on the FIRM at least two feet.

2. The Building Inspector's 100 year flood elevation determination will be used as criteria for requiring in Zones A1-30, AE, AH, AO, and A that:

a. all new construction and substantial improvements of residential structures have the lowest floor (including basement) elevated to or above the 100 year flood level;

b. that all new construction and substantial improvements of non-residential structures have the lowest floor (including basement) elevated to or above the 100 year flood level; or together with attendant utility and sanitary facilities, shall:

(i) be floodproofed so that below the 100 year flood elevation the structure is watertight with walls substantially impermeable to the passage of water;

(ii) have structural components capable of resisting hydrostatic and hydrodynamic loads and the effects of buoyancy; and

(iii) be certified by a registered professional engineer or architect that the design and methods of construction are in accordance with accepted standards of practice for meeting the provisions of this section:

c. all manufactured homes to be substantially improved within special flood hazard areas shall be elevated on a permanent foundation such that the lowest floor of the manufactured home is at or above the base flood level; and be securely anchored to resist flotation, collapse, or lateral movement. Methods of anchoring may include, but are not limited to, use of over-the-top or frame ties to ground anchors. This requirement is in addition to applicable state and local anchoring requirements for resisting wind forces:

d. for all new construction and substantial improvements, fully enclosed areas below the lowest floor that are subject to flooding are permitted providing the enclosed areas meet the following requirements: (1) the enclosed area is unfinished or flood resistent, useable solely for parking of vehicles, building access or storage; (2) the area is not a basement; (3) shall be designed to automatically equalize hydrostatic flood forces on exterior walls by allowing for the entry and exit of floodwaters. Designs for meeting this requirement must either be certified by a registered professional engineer or architect or must meet or exceed the following minimum criteria: A minimum of two openings having a total net area of not less than one square inch for every square foot of enclosed area subject to flooding shall be provided. The bottom of all openings shall be no higher than one foot above grade. Openings may be equipped with screens, louvers, or other coverings or devices provided that they permit the automatic entry and exit of floodwaters;

e. proposed structures to be located on slopes in Special Flood Hazard Areas, Zones AH and AD, shall include adequate drainage paths to guide flood waters around and away from the proposed structures.

(To be voted on by ballot)

Given under our hands and seal, this tenth day of February, in the year of our Lord nineteen hundred and eighty-seven.

Selectmen of Swanzey, NH

David M. Perry, Myron S. Steere, III, Kenneth P. Colby, Jr.

MT. CAESAR UNION LIBRARY

Librarian's Report

Service for all the people of Swanzey is the goal of Mt. Caesar Union Library! To accomplish this goal, books, magazines and other library materials are continually being added to the library resources. Materials also are borrowed on inter-library loan. Books are taken to the Carpenter Home and other shut-ins, and when necessary, arrangements are made to provide Talking Book Service for those who are blind or otherwise handicapped. School classes regularly visit the library to borrow books. There are Story Hours throughout the year. During the summer, there is a Vacation Reading Program for the youngsters and "Monday Night at the Movies" for all to enjoy. The traditional, annual ringing of the library bell on the Fourth of July was attended by thirty-six people from the area. The Cheshire Fair exhibit, created by Hazel Fuller and Janet Parsons, won first premium. One of the highlights of the year was the making and raffle of the Swanzey Quilt which was made by twenty-five women of Swanzey and which was won by Hilda Snelling who donated the quilt to the Swanzey Museum. Proceeds from the raffle and donations to the Library's Support Fund made it possible to give the building a much needed coat of paint. During the celebration of the 100th anniversary of the production of "The Old Homestead", Book Fair, Tea and Exhibit of "Old Homestead" memorabilia were featured.

"Friends of the Library" have volunteered many hours of service in and for the library as well as raising funds for special projects such as the purchase of much needed book trucks, special books, etc. Patricia Haselton is the chairman of the group. Many books and magazines are donated for library use and for the Book Fair. A newsletter of library activities, **Mt. Casear Memo** is printed twice a year with volunteer help and is available at the Town Hall and at the library.

Some statistics showing the use of the library are: materials borrowed from the library; books - 15,348, magazines - 917, puzzles - 303, records - 42, pamphlets - 38, cassette tapes - 63; reference questions answered - 574; number of persons coming into the library - 8009; individuals registered to use the library 161; 19 films were shown at the "Monday Night at the Movies" program.

The library is open 30 hours weekly and the hours are:

Monday and Wednesday: 1:00 - 5:00 PM: 6:30 - 9:00 PM

Tuesday and Thursday: 9:30 - 11:30 AM; 1:00 - 5:00 PM; 6:30 - 9:00 PM

Telephone number is 357-0456.

Serving on the Board of Trustees are: Hazel Fuller, president; Jane Johnson, vice-president; Debbie O'Meara, secretary; Roger Conway, treasurer; Donna Hills, Myron Steere, Marilyn Parpan, Mark Carrier, Connie Ownes. Robert Kenney is the town elected trustee. Assistant librarians are Janet Parsons and Lorraine O'Gorman.

STRATTON FREE LIBRARY

The year 1986 was another good year for the library. The statistics show that the people of West Swanzey support and use the library, and major improvements were made on the building. 4,998 books went out and 560 magazines and 169 cassettes were circulated. 110 new people became patrons of the library. Two fans are now hanging from our "high" ceiling which have made our library warmer this winter. Also new lighting was installed in one corner. Plus our roof and chimney were repaired.

This summer I was proud of West Swanzey's young people as 702 books were read in our Summer Reading Program. In this program one became a Captain by reading seven books on a variety of subjects. There were 39 Captains, and 28 young people read 15 books or more. 58 children participated, and we had a party for all the Captains.

During the summer we had two concerts. The Scarlet Marauders played expertly with exuberance and were a huge success. Sue Ayotte and Eileen Discoteaux put on an entertaining concert with a variety of fun and interesting songs.

The Christmas party was well attended in which we watched a film, made tree ornaments, ate refreshments, and read books.

An open house was held during the "Old Homestead weekend" in which we held a book sale, had refreshments, and had a display of Mr. Calkins wonderful historical town pictures.

Some heart-felt thanks are due to several people. Shirley Leonard has been invaluable with her help in genealogical matters. Kevin Stinson has kept our grass well-mowed and our walk well-shoveled. Mr. Gary Phippard of Cheshire Builders was a big help with his assistance in getting the roof and chimney repaired. Thanks go to Kenneth Sevene for his donation of matching antique slates for our roof which could have been difficult to replace. Thanks go to Sue MacPhail for her faithfulness and high quality work. Last, special thanks go to the trustees for their support, Bill Haley for his time spent in keeping our financial records straight, Ernest Perry for keeping the building in good condition, and Jan Sevene for her art work.

Serving on the Board of Trustees are: Ernest Perry, Chairman; Raphael Haley, Treasurer; Susan Miller, Secretary; Patricia Fenn, Carol Roosa; Jan Sevene, Theresa Stepenuck. Susan MacPhail is the Assistant Librarian.

The library is open:

Tuesday 2:30 - 8:00 PM
Thursdays 2:30 - 6:00 PM
Saturdays 11:00 - 2:00 PM

SWANZEY VISITING NURSE ASSOCIATION

1986 Report

The nursing service and home health aid and care for Swanzey residents has continued to be provided by the Home Health Care and Community Services, Inc. There were 327 visits requiring maintenance nursing. A Home Health Aid made 686 visits to residents. Much of the funding is supplied by Medicare, Medicaid, other insurance, grants, county funding and patient fees. The town has supported services that couldn't be covered by other funding.

Meals-on-Wheels has continued to grow and 6,421 meals were delivered during the year to homebound clients or patients.

The blood pressure clinics continue to be held at the Swanzey Center Town Hall on the second Monday of the month and at Waterview Apts., in North Swanzey on the last Monday of the month. They are open to all and there is no charge.

The dental clinic, co-sponsored by the Swanzey Parent-Teacher Organization and the Swanzey Visiting Nurse Association, is on a 1 year status. It is hoped the clinic may be resumed in the fall of 1987.

Hospice is available for patients and their families facing terminal illnesses. It provides helpful counseling, compassion and helpful discussion for all who must cope with difficult problems.

The telephone number for Home Health Care and Community Services, Inc., is 352-4309 in Keene and 239-4352 in Winchester to reach the Swanzey nurse.

REPORT OF THE ROAD AGENT
1986

Once we got out of a wet and icy winter in early 1986, we proceeded to make good use of the new Clark Loader, which was delivered in late Feb., by cleaning ditches and digging down high shoulders. This allows for better drainage of the road surfaces and slows down pavement deterioration.

About 12 miles of roads were cleaned and shimmed with hot asphalt where needed, and then sealed with hot asphalt and stone chips or sand. This puts "life back in the existing blacktop and eliminates potholes, thus less patching. The twelve miles sealed last year cost approx. $5,000.00 per mile and should be in fair shape for 5 years. If we can seal about 12 miles each year, we should be able to have all roads on a five year schedule.

Grass grew fast this summer and kept us busy in the cemeteries. We replaced the hydrants in Mountain View with new ones. We hope to finish the roads in Mountain View and Oak Hill this year.

It took 120 hours of baler time to get rid of our scrap pile at the dump. This was an accumulation of several years, but if managed better, we should be able to cut the time by 60%, according to the NHRRA. However, it will take a lot of cooperation from the users, and us, to eliminate the rubbish, wood, porcelain and whatever else that is mixed in with the scrap metals, and to put the metals in the designated places. This scrap removal operation cost us $6,435.51.

We took over a couple of new roads again this year, due to new developments, and opened Troy Hill Road all the way thru, which is an asset to the highway, fire and police depts and hopefully to the residents.

The N.H. State Highway Dept. installed drainage pipes on Sawyers Crossing Rd. which enabled us to do the same on Old Eaton Rd. to alleviate drainage problems there. We also replaced a number of old culverts and enlarged some of them. We swept streets and cleaned catch basins.

We replaced the furnace at the highway dept (which had lived its useful life) with a new one. Most maintenance was accomplished with our own crew, plus some fire equipment maintenance. We helped by way of signs with the Old Homestead parade and hauled some fill in and rubble out from the new museum site.

We bought a used forklift for the recycling center to replace the "sick" one. We plan to repair "it" and hopefully sell it. As I stated last year, the rubbish problem is a serious one and everyone should strive to ease it by recycling paper, cardboard and aluminium cans. Please help the dump operation by putting various items in their proper places.

Winter started early again this year and we had some problems early on with tough storms and new troops. However, I believe we are improving and I am proud of our personnels performance.

Elton W. Blood, Sr., Road Agent

CONSERVATION COMMISSION

Annual Report

During the past year the Conservation Commission has spent numerous hours to ensure proper utilization of local natural resources. By working closely with the Planning Board, Board of Adjustment, Selectmen and Recreation Committee, the Commission assisted in making the best decisions to manage growth and its effect on our environment. We also coordinated with unofficial groups in town in matters of resource protection and encouraged ongoing communication between the Commission and concerned citizens. The Commission remains affilated with the State Association of Conservation Commissions and has begun to estblish communication with neighboring Commissions regarding regional concerns.

Among our activities were:

Updating the Master Plan to include recommendations regarding resource management, providing input into the revisions of zoning and subdivision ordinances, ongoing planning with the Recreation Committee to establish recreational access to the Ashuelot River, reviewing of dredge and fill permits, performing onsite visits on pertinent subdivision proposals, promoting utilization of soils information from the Soils Conservation District, attending workshops on groundwater protection, soils, town planning, and wetlands., providing scholarships to MRHS students to Conservation Comp., indexing abandoned oil and gas tanks in town.

While the problems of coordinating preservation and development are vast in scope, the Conservation Commission draws upon the expertise of various agencies and organizations within the State for guidance. We are aware of our citizenry as a valuable resource and thus welcome anyone who feels they may be of assistance in our mandated charge of natural resource protection, indexing and planning.

SWANZEY BOARD OF ADJUSTMENT

1986

The Board of Adjustment meets on the third Monday of each month. During the past year, the Board granted 12 variances and denied three. 13 Special Exceptions were granted. Francis Faulkner, Jr., was reelected to the Board for a three year term at the March Town Meeting.

Respectfully submitted,
Richard L. Lane, Chairman

SWANZEY PLANNING BOARD

1986

The Planning Board holds regular meetings the first and third Thursday of each month. All meetings are open to the Public and all interesed citizens are urged to attend.

During the past year, the board approved 20 subdivisions, 18 Site Plan Review and 4 Home Occupation requests.

The board also spent many hours working on amendments to the Zoning Ordinances. During the coming year the board will continue to update the Zoning Ordinances, and hopes to update the Master Plan and develope a Capital Improvements program.

REPORT OF TOWN FOREST FIRE WARDEN
AND
STATE FOREST RANGER

Between July 1985 and June 1986, we experienced fewer fires than normal. The two leading causes of forest fires were again children and fires kindled without written permission of a Forest Fire Warden. Both causes are preventable, but only with **your** help.

Please help our town and state forest fire officials with forest fire prevention. Contact your Forest Fire Warden for more information.

Enforcement of a state timber harvest regulation is the responsibility of State Forestry officials. Our state has excellent timber harvest regulations; however, your assistance is needed.

If you know of a logging operation and suspect a state timber harvest law may be violated, call your Forest Fire Warden.

If you own forest land, you became responsible for the timber tax payment starting April 1, 1986. This is a change in the Timber Tax Law that will impact all forest landowners. Contact your Board of Selectmen for timber tax forms.

SWANZEY RESCUE SQUAD

Swanzey Rescue Squad is composed of trained volunteers from the Town of Swanzey. Training for emergency medical technicians consist of 120 hours of classroom training plus an addition 10 hours of training in the emergency room. All EMT's have been trained in the use of mast trousers. Swanzey Rescue has several EMT's that are also certified in EOA.

Members with advanced first aid training take a sixty hour course with additional training in auto extracation, oxygen therapy, and patient assessment. We also hold training sessions once a month at our monthly meetings.

In the year of 1986 Swanzey Rescue responded to 143 number of calls. Swanzey Rescue would like to thank all the people of Swanzey for the donations that were contributed through out the year.

A total of 155 permits were issued in 1986 - an increase of 36% over last year.

The Swanzey Zoning Ordinance now in effect requires that a building permit be obtained from the Building Inspector prior to the start of construction of, or alteration to any building.

Additionally, as a result of the passed Swimming Pool Ordinance, a Building Permit is also required prior to the start of construction of any permanently installed swimming pool.

Plans for any construction involving non-residential use or multi-family dwelling units must be submitted to the Planning Board for review and approval prior to application for a building permit in accordance with the requirements of Section XVI of the Zoning Ordinance.

Developement of any land in the Flood Plain District is prohibited except by special exception from the Swanzey Zoning Board of Adjustment and approval by the building inspector in accordance with the requirements of Section XVII of the Zoning Ordinance.

Copies of both the Zoning Ordinance and the Swimming Pool Ordinance may be obtained at the Town Offices.

RECREATION COMMITTEE

During 1986 fencing was done at Richardson Park, hopefully this will help with the vandalism problems. New lights were installed to better light the area around the Pavillion. Paving was done in front of the concession and brush was cleared from around the building. The bathrooms received a new coat of paint and picnic tables were purchased.

At Lane Field a tractor was purchased to prepare for the expansion of the recreational land which was purchased this year. Minor repairs were made on the fences surrounding the fields.

At Brown Field a new "home run" fence was put up, this enabling the field to receive more traffic. Events at the field this year included softball games, softball tournaments, summer programs, childrens outings, and family outings. The field was used by approximately 70,000 people.

In February of this year we sponsored an OHRV Safety Course. Fifteen young adults attended with each receiving their certificate, after passing the test at the end of the course. We plan to make this a yearly activity.

The Westmoreland Town Band performed 4 sundays this summer at the Pavillion. We would like to see this become a regular event with a different group performing. We need a response from the residents of Swanzey to see if this would be worthwhile. Our meetings are held the first Wednesday of each month. Please feel free to attend and give us your input.

SWANZEY HISTORICAL COMMITTEE

Annual Report

A year ago we reported our plan to build a museum and information center on Route 10 adjacent to Brown Memorial Field in West Swanzey. Swanzey now has a Historical Museum building that we can be proud of! It is of high quality construction, and will need a minimum of maintenance and upkeep. Everything has been paid for and there is no mortgage.

We have raised $125,752.46 in cash and pledges. Our goal was $145,000 and we are still hoping to reach it. There are yet things to finish and many items will be needed. The second floor loft area is waiting for carpet and furnishings. The basement all-purpose room, which may be used by schools and other groups for audio-visuals, meetings, etc., remains unfinished, awaiting funds and time. The Amoskeag steam fire pumper and the Concord stage coach are in already, as well as some display cases and other items.

We plan to officially turn the building over to the town this year. However, our committee will strive to support the operation from private donations through an endowment fund. Although we have not set a date for the dedication and official opening, it is your building, and you are invited to visit whenever you see people there.

We had the plans and the dream. Through the generosity of many people, organizations, and businesses too numerous to mention, the dream is a reality. To all, our heartfelt thanks. To those of you who were not able to assist yet, we sincerely hope you will be able to do so this year.

Charles J. Hanrahan
for the Committee

How You Can Help?

1. Send a donation to the Swanzey Historical Committee
   Rt. 1 Box 280
   Keene, N.H. 03431
   Encourage memorial gifts.
2. Stop by and offer assistance. Volunteers are needed in cataloging items, setting up displays, staffing the building during summer and fall, to help finish the rooms, and in other ways.
3. Donations or loans of historical items, about Swanzey or items used by Swanzey people are welcome and sought.
4. Assistance this spring to seed lawn and finish landscaping in back. More loam, grass seed, etc., needed.
5. We could use a television set, vacuum cleaner, file cabinets, desk, bookcases, small tables, folding chairs, shelves, folding table, small step ladder, cabinets, typewriter, electric snow blower, snow shovel, lights for pictures.
6. Help keep lawn mowed, snow removed.
7. Memorial gifts are welcome - a fitting way to remember family members and friends who are no longer with us.

SEWER COMMISSIONERS REPORT
1986

1986 was an uneventful year for the Swanzey Sewer System. There were no major expenditures for repairs or equipment at the plant.

There were 25 new hookups to the system. This will result in greater distribution of costs.

In 1987 the Commission will look into the construction of a small building to enclose the chlorine contact tank. The existing fiberglass cover is deteriorating due to weather.

The Commission will also explore the costs of pouring a concrete floor in the storage building and building a fence around the Spring Street pump station.

Glenn W. Page, Chairman
